Dr. Kelly Sutton Stood Up for Medical Freedom — Now It's Time to Help Her

Dr. Kelly Sutton, co-founder of Physicians and Patients Reclaiming Medicine, was attacked by the medical boards in California, Massachusetts and New York after speaking out against the official COVID-19 narrative. On March 27 she had a heart attack, followed by triple bypass surgery.

Dr. Kelly Sutton, the co-founder of Physicians and Patients Reclaiming Medicine (PPRM), and someone we at Creative Destruction Media (CDM) admire and consider a national hero had a heart attack on March 27.

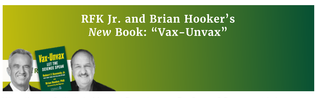
Within days, she had triple bypass surgery. Today, Dr. Sutton is miraculously at home.

Now, it is our turn to help Dr. Sutton because she is not done fighting for patients and parental rights. Dr. Sutton has been bombarded by medical boards in California, Massachusetts and New York in recent years.

She has taken the professional bricks for standing up to the insidious medical tyranny infecting our society and fought shoulder to shoulder with her patients and their families.

For years, Dr. Sutton had a private anthroposophic medical practice in Fair Oaks, California until several years ago when she decided to move to the east coast to be near her children and grandchildren.

Despite decades of providing exemplary medical care of the highest ethical standards, she underwent a difficult and arduous investigation by the Medical Board of California and subsequently had her medical license revoked and her 50-year career terminated.



Why did the California Medical Board target Dr. Sutton? Because this is what they do in California and at medical boards.

These medical boards literally target and destroy doctors who do what is best for their patients instead of being robotic step-in-fetch-its for BIG PHARMA. You can educate yourself by going to PPRM.

Dr. Sutton listened to her patients and did what was in their best interests. Hence, the Medical Board of California revoked Dr. Sutton's California medical license on March 25, 2022, for writing eight vaccine medical exemptions for school children.

As a result, the medical boards of Massachusetts and New York decided to target her as well. This is happening all over the world.

Dr. Sutton had been licensed in New York 41 years ago but never even practiced in New York but that has not stopped the medical board.

Dr. Sutton is one of many doctors not just in the U.S. but across the world who have had the moral courage not to bend to the medical tyranny that puts vaccination profits before the health of patients.

CDM has produced an "American Conversations" series on medical tyranny over the last three years. Dr. Sutton participated in one of our American Conversations town halls in 2021.

Never one to give up, Dr. Sutton co-founded PPRM to try to stop the unconstitutional government and medical board overreach into the doctor-patient relationship which has infringed on free choice regarding one's own health and the health of children, and to safeguard parental rights to protect their own children.

We ask that you pray for Dr. Sutton's full and speedy recovery, and consider a monetary donation to help with her medical expenses.

A Give Send Go page has been created specifically for Dr. Kelly Sutton, an American National Hero.

We need Dr. Kelly Sutton in the fight to take on these medical boards both in the U.S. and across the world. Medical freedom is worth the fight.

These globalists and professional fascists are still targeting everyone on earth and soon we will discover that if we even challenge a narrative — those statements will be turned into "hate" crimes. This is not hyperbole. Censorship, gaslighting and canceling are now morphing into the insanity of hate crimes.

Thank you for supporting Dr. Kelly Sutton and supporting CDM.

Thank you, The Defender, for publishing this troubling news about Dr. Sutton. Gives all of us the opportunity to pitch in according to our resources. Feeling so much outrage over the persecution of this dear woman. But believe the Bible that God will bring perfect justice according to His own timetable.
